WHITE PAPER 1.0

Sexy Meme AI

INTRODUCTION

Our team is excited to introduce you to Sexy Meme AI, the first coin that combines digital communities with real trading partners and offers utility as well as full transparency and accountability for investors.

As we grow, we will operate with integrity and respect for our community.

The standard for meme coins is to focus solely on aggressive marketing pushes, cult mentality, and of course, advertising. They strike when the anvil is hot and think about the use case later.

We first created a solidity of intent through our ideas, then we created a Community capable of supporting our project, so as to follow us with interest and guarantee constant support during the various steps.

Sexy Meme AI is launching a variety of utilities.

In fact \$sexy is an evolving token that combines the community aspect of meme coins with real-world commercial products through the gradual and strategic entry of Venture Capitals who are truly looking for something different, tangible, in what it's a real digital jungle.

We do not want to deny the strong influence that the world of meme coins has generated, but our goal is to do something more and gradually overcome the Meme label and offer a precedent that in the Crypto world no one has yet demonstrated that they want to do.

OUR MISSION

Our saying is "there's something for everyone".

Obviously it is a vision that can be morally associated with everyday life, but in this case directly associated with our project and with those who believed, believe and will believe in our work, which will not simply focus on the Sexy token, but will go much further.

We will create a circular ecosystem, capable of returning lifeblood regularly, thanks to our partnerships, in fact, liquidity will arrive monthly resulting from royalties and donations generated by the sales of NFTs and merchandising.

In this way, part of those proceeds will be intelligently exploited for all those marketing and advertising operations that will bring more and more attention to the various sectors of interest relating to the Sexy Meme AI ecosystem.

WHAT MAKES SEXY MEME AI DIFFERENT?

The reason why meme coins gain fame and gain success is mainly due to aggressive social media management, which involves the community and creates hype through influencers.

Our intent, however, is to create a solid community that believes in the project and the proposals we make, involving holders to invest in patience and in the future developments of the various functions.

From the beginning we wanted to give design features to our Sexy Meme AI, so as to gradually distance ourselves from the Meme label and find a serious path to propose to our future investors.

For this reason, we have made contact with specific Partners, who can broaden our commercial prospects by going beyond the Cryptocurrencies sector and offering other international markets:

NFT - Artistic Contents - Merchandising - Comics - Live Events

TOKEN / SUPPLY / LIQUIDITY / LOCK:

At the time of launch, 4 million of our supply tokens were blocked and remained blocked for two months, then partly unlocked and inserted into the liquidity pool and partly used for a private sale in OTC mode, to inject liquidity without price fluctuations exaggerate.

Another part was again blocked for another 2 months, awaiting release to be placed in the main pool.

A tot of 500k Sexy Token have been confined to a public address, for future marketing spend, or for prizes in contests or sweepstakes.

All in order to guarantee a healthy graph for our community. If the pool runs out, we have the option to buy back the tokens to maintain solidity and prevent any kind of unhealthy movement.

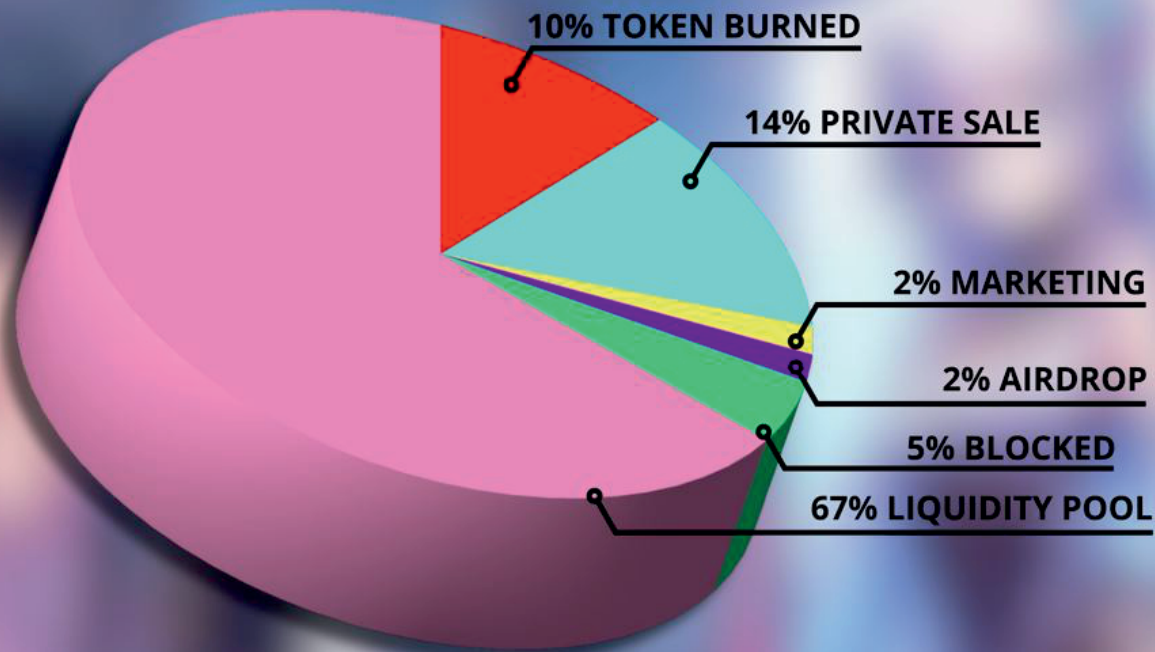

We are choosing not to block for a long period in order to be able to more easily manage any requests and market fluctuations and to quickly deal with any liquidity needs in the pool.

We have different commercial and trading strategies, because we seethat cryptocurrencies are constantly evolving.

We are pioneers in this new way of bringing the world of cryptocurrencies into classic trading and our ability to anticipate events and set a precedents is what will allow us to push Sexy Meme AI into the top 100 of global cryptocurrency market capitalization.

GRATITUDE AND GIVING

We at Sexy Meme AI know for a fact that gratitude is part of a path of conscious growth and that giving brings further gratitude.

Giving or receiving are both essential for happiness, health and social connections.

For this reason during our journey to the moon and beyond, we will always have particular attention for our community, so as to generate a cascade of good deeds and lead everyone to desire and consider the world a better place.

This means that Sexy Meme AI could dedicate itself in the near future to supporting and serving others who really need it and to contribute effectively to social causes.

The Sexy Meme AI team and community will review specific cases together before serving any cause or organization.

In that case we will have social media happy to show off our donation not to brag, but to encourage every conscious individual to do the same.
